**COMMERCIAL:** Put forth your best effort, & play to win. Saying your property is located in the Heart of the district can easily get you access to the arena; but sending an E-mail attachment that immediately captures a new client's attention & sparks their interest, puts it in a whole different league.

**INDUSTRIAL:** Deliver a clear & unobstructed vision. For businesses in search of the perfect fit, it comes down to much more than just location. Is it large enough? Is it close enough to the freeway? Is it convenient & accessible? Aerial Photography can convey all that, & much more.
